PROJECTS

System Info Dektop App

A desktop application that fetches system and hardware information such as RAM, CPU, battery status, and more.

My Portfolio

[Link to Demo](#)

A modern, responsive personal portfolio built with React and TailwindCSS to showcase my projects, skills, and experience.

RedVolt Gear

[Link to Demo](#)

A sleek, animated React-based e-commerce website built to showcase and sell high-quality laptop accessories

Portfolio (Terminal Theme)

[Link to Demo](#)

A developer portfolio built using React, TypeScript, and xterm.js. Styled with Tailwindn CSS, this terminal interface mimics a command-line experience for showcasing my work and skills in a fun, interactive way.

Authentication and Authorization

A full authentication system including sign-up, login, forgot password, password reset, email verification, and authorization using JWT (json web token).
